PLANS NOW FOR A CHURCH UNION

PROPOSAL DISCUSSED AT PHILADELPHIA NEXT MONTH

COMPLETE MERGER, GOAL

Commissioners of 29 Denominations Have Accepted Invitation of Presbyterians for Conference

New York, Jan. 7.—Commissioners of approximately twenty denominations have accepted an invitation from the Presbyterian Church to confer in Philadelphia February 3 to 6 on a proposal "for a national merger of Christian interests under the name of the United Churches of Christ in America," according to announcement yesterday from Presbyterian headquarters in this city.

The movement, started some time ago by the general assembly of the Presbyterian churches in the U. S. A., proposes the formation of a council elected by the supreme bodies of the various denominations. The council would comprise two ministerial and two lay delegates for each 100,000 communicants.

The proposed constitution of the new organization, the announcement said, "looks forward ultimately to a complete organized union of the Protestant churches entering upon the membership of the council." The announcement added that the constitution "opens the way for a gradual merging of the interdenominational interests while retaining the present denominational ecclesiastical organizations" and "is an advance on the present organization of the federal council of the churches of Christ in America, as it opens the way for consolidation of administrative agencies and the carrying forward of the general work of the churches through the council of the United Church."

The proposed plan of the council calls for administration of home and foreign missions, in behalf of the United churches, as well as other administrative agencies, on the approval of the supreme governing or advisory bodies. It accepts the ordination and doctrinal views of the evangelical churches joining the council and provides also for admission of community churches and independent organizations.

It is expected that at the Philadelphia meeting individuals will submit minority plans calling for a more complete union. One provides for interchange of church membership.

Among the denominations concerned are:

Presbyterian churches in the U. S. A.; Methodist Episcopal Church; Protestant Episcopal churches in the U. S.; Reformed churches in the U. S.; Northern Baptist convention; Evangelical Synod of North America; Reformed Episcopal Church; Moravian Church in America; United Presbyterian Church of North America; Welsh Presbyterian Church; United Brethren and Primitive Methodists.

Other denominations which have unofficially approached the proposed organic union with tentative approval are the Society of Friends, United Lutheran Church and Reformed Church in America.

Among prominent commissioners who will attend the February session are Dr. John Willis Baer of Pasadena, Cal., first layman moderator of the Presbyterian Church; Dr. Hubert C. Herring, Henry C. King, Prof. William Walker, the Rev. Peter Ainslie, a number of bishops of the Methodist Episcopal Church and Protestant Episcopal Church, George Wharton Pepper, Robert H. Gardner, Franklin S. Edmunds and the Rev. George W. Richards.

STATE INCOME TAX MUST BE PAID BY MARCH 1

All Who Paid Federal Income Tax Must Make Returns to State.

State income tax blanks for both individuals and corporations have been received here. All persons who made returns and who paid federal income taxes last year will be required to pay the state tax this year, as well as all others whose net incomes warrant the tax.

The law provides that all single persons whose salary exceeds \$1,000 annually, must pay a tax on the amount over \$1,000. The state tax is 1 1/2 per cent on all incomes over the amount exempt under the law. Last year the tax was 1/2 of 1 per cent.

A married person is given an exemption of \$2,000 and also is allowed \$200 for each dependent child.

The return on income taxes must be made not later than March 1, in the assessor's office. The tax is due and payable in June instead of October as in 1919. No credit will be given for those paying state taxes last year as was allowed according to the income tax law early in 1919. The clause allowing the credit was stricken from the law by the legislature last spring.

Absence from the city and sickness are not reasons for failure to make returns, the instructions on the tax blanks say. A penalty of \$500 is made for failure to make returns.

CHRISTIAN S. S. TEACHERS TO HOLD SATURDAY MARKET.

The Mother's class of the Cradle Roll, beginners and primary departments of the First Christian Sunday school will hold a home cookery market Saturday of this week at the Cushman music store on Main street. The proceeds of the sale are to buy equipment for the department.

Quiltman News.

The box social and watch meeting at the Woodman hall by the Epworth League New Year's Eve was a pleasant affair and brought \$65 toward the Memorial window to be placed in the M. E. church by the society.

Miss Marguerite Parker of Burlington Junction spent the week end with Jean Springer and family.

Miss Lulu McKnight of Burlington Junction and Miss Mary Bowman of Barnard visited at Henry Bowman's Sunday.

Mr. and Mrs. Norman Buttrick of Napier are visiting Mr. Buttrick's sister, Mrs. Charles Dean and family.

Miss Edess Smith returned to her work at Burlington Junction Monday.

Ed Haden and Jay Wetherford will be in St. Joseph this week on business.

Mr. and Mrs. Ed Wallace of Maryville were calling on relatives and friends Sunday.

Dr. F. M. Ryan of Maryville was called to see Mrs. Ad Parrshall Sunday.

Mr. and Mrs. Milton Johnston of St. Joseph are visiting Gus Johnston this week.

Willis Frankum left last Saturday for different points in California and to visit his sister.

Clyde Browning of this place and Miss Pearl Wigglesworth of Weatherby, Mo., were married last week.

Mr. Wilson of Burlington Junction, the Rawleigh Medicine Man, has rented the Costello property, east of the Christian church and will move next week.

Mrs. Ad Parrshall who has been very poorly for sometime was taken to the hospital at Maryville Monday.

Mrs. Emma Greenleach and children of Burlington Junction spent New Year's day with her parents, Mr. and Mrs. W. H. Hankins.

The Quiltman lumber yard is invoicing this week. They had a good business last year.

Mr. and Mrs. John Dowden and Mr. and Mrs. Forrest Dowden visited their daughter and sister, Mrs. Harry Morris last Sunday.

Capitol Decoration.

Richard E. Miller, a St. Louis artist, has been awarded the first contract for interior decorations of the new state capitol of Missouri. He is to furnish two mural paintings for the senate chamber and will receive \$12,164 for the same when they are completed and accepted by the committee on decoration of the building. This committee is composed of W. K. Bixby, and Arthur A. Kocian of St. Louis, Mrs. William R. Painter of Jefferson City, J. F. Downing of Kansas City and Prof. John P. Pickard of Columbia.

Fall of 1919 Healthful

New York, Health conditions this fall have been the most favorable in years throughout the country, reports the Metropolitan Life Insurance Company. The records of states, cities and life insurance companies show no sign of a recurrence of the influenza epidemic.

The unusually low death rate, the report says, is due to the fact that many were more or less immunized by contracting the disease last fall.

Mining companies of Pennsylvania have planted 200,000 trees during the past year, says the American Forestry Association of Washington, as their part of the reforestation program of that state. Many other corporations are taking up the work.

PLAN TO HAVE AIR ROUTE TO ARCTIC

MAY SOON CARRY FREIGHT TO FROZEN ALASKA.

SUMMER SEASON IS BEST

Trip Can Be Made Successfully Except in Mid-Winter When Storms and Darkness Beset.

Washington.—Attempt to carry freight to Alaska by aeroplane are to be made by the train and operations group of the Air Service. It was announced today. Three routes are now being considered.

J. W. Tyrrel, of Hamilton, Canada, a noted sub-arctic explorer, made the following observations in the project:

"It is at least partly due to my supposed intimate knowledge of our north country that I am an officer in the Guides of the Canadian Militia, and the proposed enterprise would seem to me to be exceedingly venturesome if not a dangerous undertaking, although not perhaps more so than many others which have of recent years been successfully accomplished.

"For many reasons the summer season, would, of course, appear to be the most suitable time for attempting an aerial trip to Alaska or any district in the Arctic; but from my personal knowledge of the north country, which does not exceed beyond Dawson City, I believe it would be difficult during the summer season to obtain suitable landing places. The country from Edmonton to the north is mostly covered with timber, although there are some prairie sections along the Peace river and at a few other points, but for the most part, areas which are not covered with timber are composed of field of broken jagged rocks, upon which it would be impossible for an air machine to land in safety. On the other hand, in winter season in the north country is so beset by darkness and stormy weather that I would consider a successful air journey to the Arctic extremely hazardous if not altogether impossible.

"There is, however, at least one month in the year which offers many favorable conditions to your project, and that is the month of April. By the first of April the storms of the winter season have passed and the north country enjoys a condition of continuous daylight, and by that time the weather has become comparatively mild, but the condition of the ice on the lakes and ponds is in an ideal condition.

"By the first of April the snow covering the ice has either greatly settled or entirely disappeared, leaving a hard even surface of ice upon the lakes, ponds and rivers. The rivers, however have a tendency to break much earlier than the lakes, and besides a swift section of the streams the ice is often treacherous and unsafe, even throughout the winter, and for these reasons the lakes would afford much safer landing places than the rivers, although with care they might also be made use of for such purposes.

"If necessary for your purpose to use a specially high grade of gasoline you could easily have that sent in advance by winter freight to several points upon such route as you might select.

"It would be well, however, to give this matter very careful attention, as I learned from experiences, on one of my own northern journeys. On that occasion I had arranged with the Hudson's bay company to deposit by boat in the summer season 6,000 pounds of supplies at Old Fort Reliance, at the northeastern extremity of Great Slave Lake, but upon arriving at Fort Resolution on the first of April, 400 miles short of the above mentioned starting point, I found all my supplies held up at that place, and it was left for me to take them to Fort Reliance over the ice as best I could. This I succeeded in doing by securing all the train dogs available and constructing long dog sleds carrying over 1,000 pounds each."

Wet Dividend.

There are millions of gallons of whisky in the country on which the government has collected the internal revenue tax, but the owners under existing conditions are forbidden to dispose of it in any way. Now the distillery companies are inquiring if they cannot declare a dividend to their stockholders, payable in whisky. Almost any kind of 'skee' would be worth \$10 a gallon in the open market, and a dividend in rye or bourbon would be hailed with tumultuous applause, on the stock exchange. If the suggestion is found feasible there will be a lot of trading in distillery stocks that were thought to be dead ones. Then, if a man appeared in a hilarious frame he could explain to the judge that he had just received an extra dividend on his Old Crow preferred.

Prosper, Texas.—Does this look like a fall in the price of pork? Council Hill Buster, aristocratic porker of the Lone Star state, sold less than a year ago to Welch & Son, of Red Oak, Okla., was resold to few days ago to Cunningham & Parvin of this place.

The price—oh, the market's around steady to higher—was only \$6,000.

\$60,000,000 IN BONDS FOR MISSOURI ROADS

Advocates of Good Roads Preparing to Launch Greatest Campaign ever Known.

Jefferson City, Mo.—Advocates of good roads are preparing to launch the greatest campaign of the kind ever known in Missouri for the adoption of the constitutional amendment providing for a state bond issue of \$60,000,000 for the construction of permanently improved highways.

It is proposed to pay the entire issue from the receipts of automobile licenses. These receipts now go into a state road fund and the transfer would not make any difference to the taxpayer or the person who paid the license, for in any event, the license goes to the highways.

One of the greatest difficulties to be met will be to convince the public that if the bond issue is adopted the money will not be wasted.

ROSEBERRY RESIGNS FROM CITY BOARD

ASKS RELEASE FROM OFFICE OF CITY COMMISSIONER

C. F. REMUS APPOINTED

Pressure of Other Business Allows Insufficient Time for City Administration.

G. B. Roseberry, city commissioner filed his resignation as commissioner with Mayor W. O. Garrett Monday to take effect immediately. Mayor Garrett has appointed C. F. Remus to take the place made vacant and to fill out the unexpired term of Mr. Roseberry which extends until April 1921.

The reason given by Mr. Roseberry is the pressure of other duties and business which make it impossible for him to devote the time to the city administration which he should.

At the time of Mr. Roseberry's appointment as commissioner he accepted the office under protest for the reason that his work made the assumption of other duties almost impossible but assumed the work with the understanding that later when the new form of government had become established and the various detail of the new plan worked out, his resignation would be accepted.

The city commission form of government was established in April of last year with W. O. Garrett, mayor, Roy J. Curfman and G. B. Roseberry, commissioners.

ARMY MAIL TO SIBERIA TO GO TO RED CROSS

The post office department has advised the Red Cross that until American forces are withdrawn from Siberia packages not exceeding seven pounds in weight may be forwarded through the Red Cross.

They should be addressed as follows: "John Smith, American Red Cross, Siberian Commission, Care of American Expeditionary Forces, Vladivostok, Siberia." Members of the Siberian Commission of the Red Cross, it is understood, have agreed to undertake delivery from Vladivostok.

COFFEE HOUSE TO REPLACE THE BAR

SOUTH AMERICA PREPARING FOR INCREASED U. S. TRADE

BULK COMES FROM BRAZIL

Heavy Shipment from Japan Feature of Last Year's Receipts. Average 1919 Price 18.7

Washington.—The United States, long recognized as the largest coffee consuming country in the world, may, as a result of nationwide prohibition, greatly increase the consumption of this beverage by the establishment of the once popular "coffee houses" of England in this country to supplant the "bar." This is by no means an impossibility, and the Brazilian government, alive to the possibilities for expansion of the coffee trade, has decided to spend a large sum of money during the next four years in an extensive advertising campaign in the United States, according to information received by the Department of Commerce.

Receipts approximating normal, high record shipments, and increased average prices mark the movements of coffee to and from the United States in the fiscal year 1919. Receipts exceeded those of the "peace" year 1914 by only 4.5 per cent and were 8.2 per cent below those of 1919, the last full year of the war; shipments (exports and re-exports to foreign countries and sales to noncontiguous territories in the United States), on the other hand were 87.4 per cent greater in both quantity and value than in 1918. The average price of the coffee received in 1919 was 18.7 cents a pound, contrasted with 9 cents in 1918 and a shade over 11 cents in 1914. The average price of the coffee (both domestic and foreign) shipped was 8.6 cents, compared with 13 cents in 1918 and 16.1 cents in 1914. As regards domestic raw coffee alone, the average export price was 19.5 cents in 1919, 14.5 cents in 1918 and 16.2 cents in 1914.

The receipts of coffee into continental United States during the fiscal year ending June 30, 1919, from foreign countries aggregated 1,051,839,910 pounds, valued at \$144,069,369, an increase of 4.5 per cent in quantity and of 29.3 per cent in value over the previous year of 1914.

The bulk of the coffee arriving in the United States comes from South America, chiefly Brazil, Central America, Mexico, the West Indies, Hawaii and Porto Rico supply what are known as mild coffee; from Aden and Arabia comes the familiar Mocha coffee, and the Dutch East Indies send Java coffee. Brazil has dropped from supplying approximately 75 per cent of the imports of coffee into the United States in 1914 to 53.8 per cent of the receipts in 1919. This loss was partially compensated by the increase in imports from Central America and the West Indies.

Coffee cargoes from Central America increased from 40,000,000 pounds in 1914 to 158,000,000 in 1919; those from Haiti rose from 2,000,000 pounds in 1914 to almost 48,000,000 in 1919, and those from other West Indian islands from 2,500,000 in 1914 to 9,000,000 in 1919. The arrival of almost 8,000,000 pounds of coffee from Japan was a feature of the past year.

In 1919 the United States re-exported 77,720,366 pounds of foreign coffee, valued at \$13,913,040, as against 9,574,496 pounds, valued at \$1,276,227, in 1914. Exports of Hawaiian and Porto Rican raw coffee for 1919 amounted to 37,324,166 pounds, valued at \$7,252,294, and of roasted and prepared coffee 5,564,761 pounds, valued at \$1,194,418.

The foreign coffee reshipped from the United States goes principally to northern Europe and to France. Re-exports in 1919 of 21,000,000 pounds to France, 20,000,000 to Belgium, 10,000,000 pounds to Denmark, almost 8,000,000 pounds to Sweden, and more than 6,500,000 pounds to Norway are particularly interesting when compared with the quantities sent these countries in 1914.

Tigers killed no fewer than 1,000 persons in India last year; wolves and bears accounted for 338, leopards for 225, and crocodiles and alligators for 194. Snakes headed the list with 22,600 victims.

CATTLE SHORTAGE MAY CAUSE HIGH PRICES

Will Keep Prices on the Peak for the Next Seven Years Statisticians Claim Chicago.—A shortage of one million cattle in the year just closing will cause high prices for beef and beef products for at least the next seven years, it is declared by M. F. Horine, statistician for the Union stockyards, in his annual report made public yesterday.

Mr. Horine says it will be impossible to make good the shortage of 1919 before 1927, and that the department of agriculture's report concerning the number of cattle in the United States is too optimistic.

An increase of 377,000 animals of all kinds received at the Union stockyards for the year 1919, over 1918, is reported. Cattle receipts, however, decreased 290,000.

Decreases in cattle slaughtered are also reported at the markets in Kansas City, Omaha, St. Joseph, St. Louis and Sioux City.

THREE CANDIDATES FOR SENATOR ON G. O. P. TICKET

Senator Spencer Will Have Two Opponents for Nomination in D. F. Davis and J. L. Minnis.

St. Louis.—The political beehive has broken open and the bees are humming merrily over the state of Missouri, with the senatorial bee—the "king bee" of the swarm—joyously imbedding his stinger.

Activity is beginning to assume definite form in all parties and announcement of candidacies are following rapidly upon each other.

The latest announcement is that of Dwight E. Davis—wealthy veteran of service in France and former park commissioner of St. Louis—who seeks to succeed Selden P. Spencer as United States senator on the Republican ticket.

James L. Minnis, former vice-president and general solicitor of the Wash. railroad, will announce his candidacy for United States senator on the Republican ticket.

This will make a three-cornered fight for the senatorial nomination among St. Louisans, unless Walter S. Dickey of Kansas City or John C. McKinley of Unionville should get in. Reports from up-state are to the effect that both Dickey and McKinley may run.

Davis and Spencer will face each other at the Republican state committee meeting in Kansas City Friday, call for which has been sent out by Chairman W. L. Cole of Union. The meeting is called for the purpose of deciding on the date and place for the state convention at which delegates to the Republican national convention will be selected and other campaign matters attended to. The gathering Friday is the first of the Missouri G. O. P. in the present campaign.

AGED COUPLE DIE SAME NIGHT AFTER 54 YEARS

St. Louis.—Happiness reigned in the home of Mr. and Mrs. August Bottger. On January 14 they were to celebrate their fifty-fourth year of married life. Bottger walked into the kitchen suffering an acute attack of peritrit, he fell unconscious. Mrs. Bottger ran to him. The shock was such that she collapsed in a chair. Mrs. Augusta Weiss, a daughter, found them. Both were unconscious.

Mrs. Bottger died at 7:30 o'clock and Bottger died a few hours later. The husband was eight one years old; the wife seventy one.

RECEIVES A POSTCARD MAILED 13 YEARS AGO.

Ardmore, Okla.—A postcard travel stained, rumpled and worn, was received a few days ago at Marietta by Mr. and Mrs. Marshall Norville, just thirteen years after it had been dropped in a postoffice at a North Texas town. The card was addressed to the Norvilles at Oklahoma City, thirteen miles north of the Texas line, and travelled at the rate of a mile a year after crossing the Red River.

No data are available to chronicle the wanderings of the postal card which bore a message of congratulation to the Norvilles on their marriage.

WELL KNOWN WOMEN

Kansas City, Mo.—"When one of my daughters was about seventeen years of age she suffered terribly at times. She would be ill for three or four days. She would be unable to be out of bed for at least two days. This condition existed for a while and she became very much and sickly. I really was worried. I would have her then when she was suggested to me. I tried it and in less than three months after she started to take it her development was complete. The Prescription proved such a wonderful tonic that I had been told it for a whole year and I felt amply repaid when I looked at her rosy cheeks. I am sure that she owes her present splendid health to the 'Favorite Prescription' which she took at that time. It is the safest and most reliable tonic for girls and women that was ever placed on the market."—MRS. M. PEL-SOR, 2741 Myrtle Ave.

Women Who Suffer
St. Joseph, Mo.—"I had woman's weakness and at times I would suffer with sharp pains in my right side. I took Dr. Pierce's Favorite Prescription and it gave me great relief. I do not suffer now and have felt much stronger since its use. It will surely give relief if taken as directed."—MRS. FRANCES TYLER, 2813 S. 23rd St.

St. Louis, Mo.—"As a liver regulator and purgative I have found Dr. Pierce's Pleasant Pellets to be far above the average proprietary medicine. For years I had been troubled with chronic constipation and had tried a great many different advertised remedies, then a friend suggested my trying the 'Pleasant Pellets.' I found them to be extremely mild but very effective."—MRS. GEO. BROWN, 7309 Hoover Ave.

Women who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic, now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription. Send 10c to Dr. Pierce's Invalids' Supply Co., Buffalo, N. Y., for trial package.

OF SHIKS**50 CHARTER MEMBERS**

All Men of First Christian Church Eligible. Officers and Standing Committees Chosen.

The organization of a men's fraternity in the First Christian church was completed last night with fifty charter members.

The fraternity is to be known as the "Ancient Order of Shiks" and its purpose is fraternal, benevolent and social. It has many plans for work in its future with the hope that the good accomplished will extend beyond the church and immediate community. This is the first organization of its kind known to be affiliated with church. A part of its work is secret and its aim is for betterment in civic, church and social life. The officers are Rev. R. E. Snodgrass, sovereign; Prof. Fred Kellogg, vice sovereign; Lee Strickler, secretary and treasurer; Alex Holt, chaplain; R. M. Strawbridge, watchman; and W. G. Cook, conductor.

All men of the church are eligible to membership and the time for receiving charter members has been extended two weeks. Any one desiring to enter as charter members may notify any of the officers and they can be taken in at a special called meeting to be held at the church Tuesday night, January 20.

A special committee to draft an initiatory ceremonial was appointed last night to report at this meeting. This committee is composed of E. G. Cook, M. L. Grable, W. E. Goforth, Prof. J. M. McDonald and Jonathan Stark.

The constitution and by laws presented last night by a committee appointed for that purpose, were adopted. Following the business period last night, a musical program was given by Prof. H. J. Becker and a male quartet composed of Rev. Snodgrass, Hal Catterson, Mr. Becker and W. E. Goforth.

J. H. ROLL ELECTED
HEAD OF S. P. C. A.GARRETT, McKELVIE AND WADE
RETAINED AS DIRECTORS**BIG INCREASE IN 1919**

Seventy five in Attendance at Banquet Last Night—G. L. Whitley Toastmaster.

At the annual stockholders meeting of the Standard Poland China Record Association held at the court house this morning, W. O. Garrett of Maryville, S. McKelvie of Fairfield, Neb., and C. E. Wade of Rising Sun, Neb., were all re-elected as members of the board of directors. John H. Roll of Coin, Ia., was elected as president of the association and A. L. Auer of Conception Junction was selected as vice president from the state of Missouri.

The attendance of the annual meeting was small.

The report of the business for the year 1919 shows an increase of forty per cent over the year, 1918, which was up to that time the very best year. The financial report shows that the total assets of the company to be \$45,529.06, divided as follows:

Balance on hand Dec. 22, 1919, \$13,093.84; real estate loans \$3,200; building and fixtures, \$15,635.22; Liberty bonds, \$6,000; time certificate, \$7,500.

The members discussed plans to have representatives at state and county fairs and to give medals and premiums on Poland China hogs on exhibition.

The work of Secretary Frank Garrett and his office force was highly praised and the board of directors in their report had the following:

"We further find the work of the secretary and his assistants to be very satisfactory, and especially commendable in getting the pedigrees sent for record returned promptly to the sender."

The banquet to the members of the association held at the Bannum hotel last evening was a success. There were seventy five in attendance. The toastmaster was George L. Whitley, president of the Chamber of Commerce. May or W. O. Garrett welcomed the visitors to the city. In his speech he stated that the first banquet of the association was held thirty one years ago and of the twelve men who started and organized the association only one was alive today, being E. E. Carver of Guilford, who was in attendance at the banquet last evening.

Prosecuting Attorney Charles F. Mc-

Caffrey, who was presented to the diner as a popular young bachelor, delivered the main address of the evening and took for his subject "Our Country's Future." Mr. McCaffrey said there was room for only one flag in this country, and that the American flag. Mr. Whitley told of his experience with his pig club. There are seventy two members of the club.

S. McKelvie of Fairfield, Neb., who has been attending these annual meetings in Maryville for a number of years spoke highly of the hospitality of the people. Mr. McKelvie is the father of Governor McKelvie of Nebraska.

The musical program at the banquet was well enjoyed by the diners. Numbers were given by Schumacher's orchestra composed of Miss Hilda Lahr, Mrs. William Dryer, Ralph Yehle, Ed Schumacher, and Paul Basford. Misses Besse Scott and Mary Carpenter, and Frank Schumacher gave a number of songs which were well applauded.

The meeting of the board of directors of the association held this afternoon, W. O. Garrett was elected as chairman of the board with James Kennish of Mound City as vice president. The term of Frank Garrett as secretary of the association will not expire until next year as he was elected in 1918 for a term of three years.

TORPEDOED!

Don't blast your Liver and Bowels, but take
"Cascarets."

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, grassy, disordered stomach and colds. Are you keeping your liver and bowels clean with Cascarets, or shocking your insides every few days with calomel, salts, oil and violent pills?

Cascarets work while you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels. Cascarets never sicken, sicken or cause inconvenience and Cascarets cost so little too. ADV.

232 NEW MEMBERS SECURED FOR FARM BUREAU YESTERDAY

George Saffarrans Head of Marion
County Bureau Arrives Last Night
to Aid in Campaign

Two hundred and thirty two mem-
bers were secured yesterday for the
Nodaway county farm bureau, making
the total membership now seven hun-
dred and seventeen.

The solicitors have hopes of bring-
ing the total up to the number set by
Saturday night. Practically every farm-
er solicited to join has immediately en-
rolled. Independence township had the
greatest number of new members yes-
terday obtaining forty one.

George Saffarrans of Palmyra, Mo.,
president of the Marion county farm
bureau, arrived in Maryville last night
to aid in the work. It has been eight
years since the Marion county bureau
was organized and it has had a period
of splendid success. Mr. Saffarrans is
one of the most enthusiastic boosters
of the movement in the country. He
will speak at a meeting to be held to-
night at the Pleasant view school
house in Atchison township and Friday
night at a meeting to be held at the Lor-
raine school house in Lincoln township.
Chester H. Gray, president of the
state organization, who is aiding in the
campaign, will speak at a meeting at
Conception tonight.

Teachers college to the Student Vol-

unteer convention, held at Des Moines,
Ia., last week, gave a history of the
student volunteer movement and the
work accomplished in the past, at the
college assembly this morning.

Miss Leet, Miss Pearce of Barnard,
Miss Stevenson of Skidmore of the
student body, and Miss DeLuce of the
faculty were delegates to the conven-
tion. Other reports of the convention
are to be given at a later assembly
this week. The delegates returned Mon-
day night.

There Was Nothing So Good
for Congestion and Colds
as Mustard

But the old-fashioned mustard
plaster burned and blistered while it
acted. Get the relief and help that
mustard plasters gave, without the
plaster and without the blister.

Musterole does it. It is a clean,
white ointment, made with oil of mus-
tard. It is scientifically prepared, so
that it works wonders, and yet does
not blister the tenderest skin.

Gently massage Musterole in with the
finger-tips. See how quickly it brings re-
lief—how speedily the pain disappears.

Use Musterole for sore throat, bron-
chitis, tonsillitis, croup, stiff neck,
asthma, neuralgia, headache, conges-

Get Into The Game!

You Farmers of Nodaway County

MEMBERSHIPS IN THE NODAWAY COUNTY FARM
BUREAU ARE BEING SOLICITED IN EVERY TOWN-
SHIP IN THE COUNTY THIS WEEK. The solicitors started
out Monday and expect to visit every farm home in the county
before the drive is completed. Nodaway is the first Missouri
county to organize under the new plan which ties the county
unit to the state and national organizations and assures for the
farmers of the United States a real national organization big
enough and with money enough to accomplish big things for
agriculture.

2,000 Members is the Goal

ALREADY THERE ARE 400 MEMBERS WHO WERE
SECURED IN THE PRELIMINARY CANVASS AND EV-
ERYTHING POINTS TO A SUCCESSFUL CAMPAIGN
THIS WEEK. The cold weather and rough roads are not keep-
ing the enthusiastic Nodaway County men from driving all day
to carry to their brothers the opportunity to join the great
movement for better farm conditions. If the chance comes to
you to give your name to the solicitors before they visit your
house, you will be making it easier for them by giving them
your membership.

The Farm Bureau

HAS A BIG PROGRAM THAT IS AIMED AT THE COR-
RECTION OF FUNDAMENTAL WRONGS AGAINST THE
FARMERS. The state and national Federation will look after
the legislative and economic problems that affect farm condi-
tions and the county unit takes care of the local interests of its
members. The Farm Bureau is an effective organization that
will bring big returns for the small amount of money you are
asked to invest.

PROSPECTUS OF LABOR DISPUTES BEING PREPARED

Plan to Conciliate Laborers and Capitalists for Coming Year Prepared for 1920.

Washington.—Events having a vital bearing on the industrial situation in the United States are scheduled for the last week of 1919—a year of strikes and lockouts. On the outcome of these events, all of which will get under way next Monday, hinge the hopes of the government that 1920 will prove a year of industrial peace and record production.

The events are:

The first report of President Wilson's industrial commission, appointed to work out means for preventing trouble between capital and labor, to be made public.

The first meeting of the three-man tribunal called to investigate the coal

controversy will be held. Railroad labor leaders will meet to outline further action on their demands for increased wages, which they wish settled before the roads go back to private control.

The industrial commission's report will propose a new set of machinery for preventing strikes. It is understood that the report will touch on the broad relation between capital and labor, and give a detailed outline for strike prevention. After the country has been given an opportunity to study and discuss the report, the commission reconvenes January 12, prepared to take up suggestions for changes.

The meeting of the coal tribunal will be to lay the ground work for a real survey of the whole coal industry, in which wages and profits will be gone into exhaustively.

The gathering of the railroad workers here is expected to determine whether there will be peace or war in the transportation industry of the country.

try. Railroad labor leaders deny talk of a strike.

Before Monday's meetings, Attorney General Palmer may issue a new review of the government's efforts to bring down prices, with a prediction that 1920 will see a decline in living costs.

Streater, Ill.—Story book romance was made real here in the case of Mr. and Mrs. W. R. Jones.

Twenty years ago Jones kissed his wife and baby daughter good-bye as he departed for the West to recuperate from ill health. He wrote for a few months and then letters ceased to come. Mrs. Jones was unable to locate her husband. After three years, believing him dead, she remarried. Six years ago her second husband died.

A few days later Jones reappeared and he and his wife, the "widow," 55, were reunited.

Essex Sets World's Long Distance Endurance Mark

3038 Miles in 50 Hours, Averaging
60.7 Miles An Hour

All that 20,000 owners have claimed for Essex endurance is proved in the official tests completed under American Automobile Association observation on the Cincinnati Speedway, December 12. It was the first official test ever made of a car driven at top speed for fifty hours.

Made 5,870 Miles in 94 Hours
22 Minutes Driving Time

The Essex was put on the speedway to prove its reliability in a fifty hour test.

At the end of 27 hours 58 minutes and in the 1790th mile, rain and sleet forced a stop. A second start was made three days later but snow again ended the trial. This time the run lasted 16 hours 25 minutes and covered 1042 miles. The third run starting the following day was successful, the fifty hour period being completed.

Thus the proof of Essex endurance is even greater than that expressed in the 50 hour run. Think what that means. The average car is driven little more than 5,000 miles in the entire season. But this stock Essex chassis went more than a mile a minute for 5,870 miles.

More Than You Will Ever Want.

Your average driving speed is probably 25 miles an hour. You rarely maintain that speed for more than an hour or two. Still if your car should go through the season with that kind of performance wouldn't you be pleased?

How much more trying to every item of its mechanism were every one of those high speed miles than any demand you will make.

Almost as astounding as its endurance was its tire experience. The front wheel tires went through all three trials without change. Two rear tires were replaced because of damage done by splinters from the board surfaced track.

Application was made last April to conduct stock reliability tests under the Association rules. Since then close to 15,000 cars have been delivered and the Essex used in this test is officially

vouched for as being identical with every Essex built.

Doesn't It Settle the Light Car Question?

Light weight in an automobile has meant principally moderate price and perhaps gasoline and tire economy. There was enough speed and power to get about but none that gave distinction on the road. Fineness and performance were not expected.

But the Essex brought fine car quality to the light car field. Its appearance gave it immediate distinction. Its performance placed it in the large costly car class. Only in size, cost and economy of gasoline, oil and tires was it compared to cars in the moderate price field.

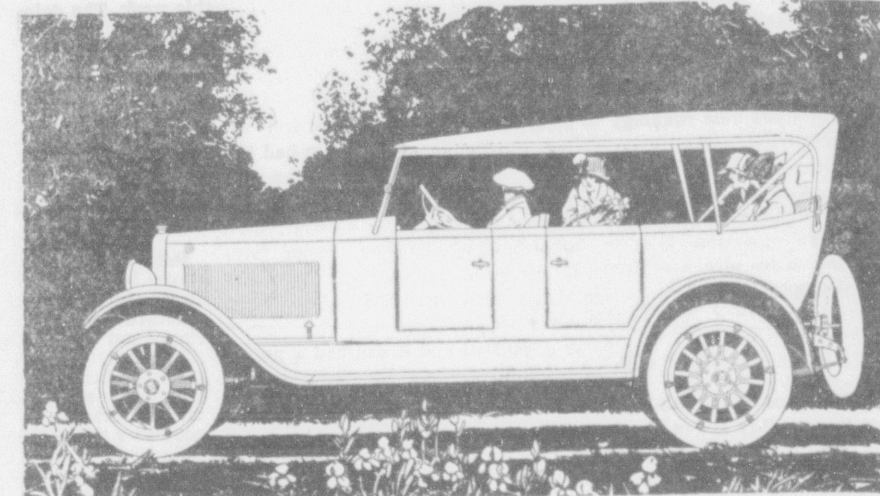

Is it any wonder that motorists have praised the Essex as they have? It gave them just what they had wanted. It was the way by which they could keep their motoring costs down and still have a car that filled their demands in performance, appearance and endurance.

So Make Sure You Can Get an Essex

Every Essex delivered has resulted in an increased demand. The purchases grew to more than thirty-five million dollars within eleven months. Its 20,000 owners are adding to the demand that is rolling up for next spring deliveries. We are already booking them. There is no possibility that all buyers can be served. Now is the time when you should make reservation. This latest proof will decide thousands who have waited for just such evidence that the Essex is as good as people have said it is.

CHANDLER SIX Famous For Its Marvelous Motor

Chandler Strides into Full Leadership

If there has ever been any question as to Chandler leadership of the medium-priced fine car field, it is answered now. The great Chandler Six is sweeping its market. It displaces less efficient cars. It steps in to serve those who previously have chosen only high-priced cars. And it pleases everywhere.

From two thousand to three thousand discriminating Americans buy Chandler cars—open and closed—every month this Fall. And at no time has the demand been fully met. Thousands have waited months for new Chandlers, and have felt repaid for waiting.

Nothing could more clearly show the regard in which America holds Chandler Six, than the patience with which these thousands waited weeks and months for their Chandlers. They waited because they knew what they were waiting for—because they knew it was worth waiting.
